

Please do not give LPFM priority over FM translators. I am concerned that KLOVE would not be available in my area, should this happen. KLOVE offers wholesome values and a positive, encouraging impact in my community and across America. KLOVE needs the FM translators to broadcast and we need more stations like KLOVE! KLOVE has an encouraging effect on young people, giving them affirming music and a positive message to raise mature, involved, and responsible citizens. In the workplace, KLOVE's format and message can be played without any worry of offending cube-mates with offensive language or innuendo. Please protect this positive type of programming by keeping the airways open so that stations like KLOVE can continue to play across America. Thank you.
